	Labour Day among both the aspiring business leaders of tomorrow (the MBA students) and the labourers who form the backbone of the local economy. By shedding light on the struggles and triumphs of the labour movement, the initiative aimed to instil a sense of historical context and appreciation for the rights and protections that workers are entitled to. Simultaneously, the Gram Sabha served as a vital platform to promote a meaningful and constructive dialogue between these two often-disparate groups. By facilitating direct interaction, the UBA Cell sought to foster an environment of mutual understanding, empathy, and respect, breaking down potential stereotypes and building bridges between future management and the workforce. Furthermore, the Gram Sabha provided a crucial space for the open and frank discussion of the pressing challenges that currently confront the labour force in Village Mandpa and the wider Jewar Block. Key issues such as prevailing working conditions, the fairness of wage structures, access to essential social security benefits, and the effective enforcement of existing labour laws were brought to the forefront. This direct engagement allowed labourers to voice their concerns and share their lived experiences, providing invaluable real-world insights for the MBA students. Ultimately, this initiative aimed to bridge the inherent gap between the theoretical knowledge imparted in management education and the tangible realities faced by the labour community, fostering a more informed and socially conscious generation of business leaders.
Outcome of Activity	• Participants (both MBA students and labourers) will demonstrate a greater understanding of labour rights, labour laws, and the historical context of International Labour Day. • The event will foster improved communication and empathy between MBA students and labourers, breaking down stereotypes and biases. • MBA students will gain actionable insights into the challenges faced by labourers, which they can apply in their future management roles to create more worker-friendly policies and practices.
