SYLLABUS

ADVANCED EXCELCERTIFICATION COURSE

Course Code: MMAC04

Learning Objectives:

This Advanced Microsoft Excel training course is designed for students to gain the skills necessary to use pivot tables, audit and analyze worksheet data, utilize data tools, collaborate with others, and create and manage macros.

Duration: 30 hours

Course Outline:

- **Advanced Excel Course - Overview of the Basics of Excel**

- ☐ Customizing common options in Excel
- ☐ Absolute and relative cells
- ☐ Protecting and un-protecting worksheets and cells

- **Advanced Excel Course - Working with Functions**

- ☐ Writing conditional expressions (using IF)
- ☐ Using logical functions (AND, OR, NOT)
- ☐ Using lookup and reference functions (VLOOKUP, HLOOKUP, MATCH, INDEX)
- ☐ VlookUP with Exact Match, Approximate Match
- ☐ Nested VlookUP with Exact Match
- ☐ VlookUP with Tables, Dynamic Ranges
- ☐ Nested VlookUP with Exact Match
- ☐ Using VLookUP to consolidate Data from Multiple Sheets

- **Advanced Excel Course - Data Validations**

- ☐ Specifying a valid range of values for a cell
- ☐ Specifying a list of valid values for a cell

(Approved by AICTE, New Delhi & Affiliated to AKTU, Lucknow)

Knowledge Park-II, Greater Noida (U.P.)

- ☐ Specifying custom validations based on formula for a cell

- **Advanced Excel Course - Sorting and Filtering Data**

- ☐ Sorting tables
- ☐ Using multiple-level sorting
- ☐ Using custom sorting
- ☐ Filtering data for selected view (AutoFilter)
- ☐ Using advanced filter options

- **Creating Pivot Tables**

- ☐ Formatting and customizing Pivot tables
- ☐ Using advanced options of Pivot tables
- ☐ Pivot charts
- ☐ Consolidating data from multiple sheets and files using Pivot tables
- ☐ Using external data sources
- ☐ Using data consolidation feature to consolidate data
- ☐ Viewing Subtotal under Pivot

- **Advanced Excel Course - Data Validations**

- ☐ Specifying a valid range of values for a cell
- ☐ Specifying a list of valid values for a cell
- ☐ Specifying custom validations based on formula for a cell

- **Advanced Excel Course - Charts**

- ☐ Using Charts
- ☐ Formatting Charts
- ☐ Using 3D Graphs
- ☐ Using Bar and Line Chart together
- ☐ Using Secondary Axis in Graphs

ADD-ON

ADVANCED EXCEL

Duration: 30 Hours

Date	6th – 24th January, 2020
Venue	Seminar Hall
Organized by	MIMT Department
Expert	Mr. Jayant Chakraborty, Trainer, TDF Consultant
Beneficiary	MBA 4 th Semester (67 Students)
Convenor	Ms. Prachi Aggarwal, Asst. Professor, MIMT
Objective	The Workshop was organized with the aim of providing hands-on experience to the students, on analyzing raw data, using MS Excel tools.
Content	<p>Management Department, MIMT organized a 30-hour certification on "Advanced Excel". The resource person started his session with a basic introduction to MS Excel. Data for all the session was beforehand shared with all the students. With that data, he explained various concepts such as logical functions, Vlookup, sorting & filtering the data, etc. He also taught about Pivot table creation, displaying graphs from pivot tables, using filters to get the appropriate graphs, grouping data, single dimension comparison and two-dimension data comparison. These techniques were practically demonstrated by the Trainer, and the students were asked to create their own pivot tables and use command taught by him using the data that had been shared with them.</p> <p>Day 1: The resource person gave the overview of MS Excel. The session was started with basics of MS excel so that students feel comfortable to do excel at advanced level. In this session, students learn customizing common options in Excel, Absolute and relative cells and protecting and un-protecting worksheets and cells.</p> <p>Day 2: Students learn about logical functions such as if function, how to fix errors-if error, nested if, and complex if and or function. This hand-on session was highly informative for students.</p> <p>Day 3: In this session, Resource person continue the logical functions and students learn about logical functions (AND, OR, NOT), and lookup and reference functions (VLOOKUP, HLOOKUP, MATCH,</p>

INDEX).

Day 4: The Day was started with advanced excel course. This session covers VlookUP with Exact Match, Approximate Match. Nested VlookUP with Exact Match, and VlookUP with Tables, Dynamic Ranges.

Day 5: Resource person started the session with another logical functions of advanced excel. Students did some practice on logical function which were taught in previous session. Later on, resource person proceeded with other functions of advanced excel such as NestedVlookUP with Exact Match and Using VLookUP to consolidate Data from Multiple Sheets.

Day 6: Day 6th was on data validation. Resource person covered various aspects of data validation such as Specifying a valid range of values for a cell, Specifying a list of valid values for a cell, etc.

Day 7: In this session, resource person discussed sorting and filtering function. He also discussed the usefulness of this function and how this function do work big data as well.

Day 8: In this session, resource person continuing sorting and filtering of data and student learn about auto-filtering and advance filter options in MS Advanced Excel.

Day 9: The students learn about pivot tables in Day 9 of the program. Resource person taught about formatting and customizing pivot table in Excel sheet.

Day 10: In this session, students learn about consolidating data from multiple sheets and files using pivot tables, use of external data sources for creating pivot table, use of data consolidation feature to consolidate data, and viewing subtotal under pivot table.

Day 11: The Day was on data validations. In this session, various methods were taught to students to validate the data.

Day 12: In this session, students learn about charts in Excel. This hand-on session, students create various charts, learn about the chart formatting. Resource person also discussed 3D graphs and how to create and use them in the reports.

Content of Module

Course Code: MMAC01

Module 1: Six Sigma and Organizational Goals

- Lean principles in six sigma
- Design for six sigma methodology

Module 2: Define Phase

- Project Identification
- Project Management Basics
- Management and Planning Tool
- Business results for project

Module 3: Measure Phase

- Process Analysis and Documentation
- Probability and Statistics
- Collecting and Summarizing Data
- Statistically Distribution
- Measurement System Analysis
- Process and Performance Capability

Module 4: Analyse Phase

- Hypothesis Testing
- Exploratory Data Analysis

Module 5: Improve Phase

- Design of Experiments (DOE)
- Root Cause Analysis
- Lean Tools

Pragati

Venue	MIMT, Seminar Hall
Organized by	Management Department
Name of Expert	Ms. Bharti Goel (Edu4sure) & Mr. Deepak Goel (Edu4sure)
Beneficiary	MBA 2 nd Semester (124 Students)
Activity -Convener	Dr. Priyanka Srivastav, Asst. Professor, MIMT
Objective	The 30-hours certification program aimed to focus on having knowledge and usage of three software i.e., Companion, Minitab 18 and SigmaXL which gave the students a practical hand on for the theory part they will learn.
Content	<p>In yet another great step taken by the management at Mangalmay Institute of Management and Technology, by providing the students an opportunity of getting trained on the lean six sigma course. Ms. Bharti Goel (Edu4sure) & Mr. Deepak Goel (Edu4sure) shared his expertise knowledge and gave the students real world exposure in 30-hour of certification program. Two batches of 62 students each were created. As more and more students are opting for the MBA course and quickly plan to enter into the increasingly competitive work force which makes it necessary for the students to learn to drive process improvement projects using Lean Six Sigma methodology, which is the main pillar of any great success. This includes the trends in hiring, how they compete and cope to their likely competition for available positions and where the industry itself is headed.</p> <p>Day 1: In this session, resource person discussed Six Sigma and its importance in attaining organizational goals.</p> <p>Day 2: The Day was started with discussion on "Define Phase" of Six Sigma. In this session, resource person discussed project identification and project management basics.</p> <p>Day 3: Continuing the "Define Phase", the resource person discussed with students about management and planning tool and the business results for project.</p> <p>Day 4: In this session, the resource person discussed "Measure Phase" of the Six Sigma. Process analysis and documentation was discussed in detail with students.</p> <p>Day 5: In this session, resource person hands over some exercise sheets to students which were related to probability and statistics.</p> <p>Day 6: In this session, various methods of data collection and</p>

Knowledge Park-II, Greater Noida (U.P.)

	<p>summarizing were discussed. Resource person gave demonstration on excel how one can easily summarize the data.</p> <p>Day 7: In this session, resource person discussed process and performance capability with students. Further, he elaborated that how an organization can improve process and performance capability using six sigma.</p> <p>Day 8: This session was on hypothesis testing. In this session, resource person discussed various hypothesis testing techniques.</p> <p>Day 9: The resource person discussed various exploratory data analysis techniques with students. This session with hand-on session.</p> <p>Day 10: This session was on "Improve Phase" of Six Sigma. In this session, resource person discussed design of experiments with students. He elaborated this structured approach for collecting data and making inferences.</p> <p>Day 11: In this session, resource person, discussed about the Root Cause Analysis and various Root Cause Analysis tools for effective problem solving.</p> <p>Day 12: On this session, another improvement tool "Lean Tools" were discussed with students. Resource person discussed various tools which helps the organization to control quality.</p> <p>Day 13: The session was on improvement phase of Six Sigma. In this session, resource person discussed how to select an optimum solution to the problem. Further, Export & Import Remote Access was also discussed.</p> <p>Day 14: In this session, resource person discussed about the statistical process control. He discussed SPC tools and procedures can help an organization to monitor process behaviour, discover issues in internal systems, and find solutions for production issues.</p> <p>Day 15: At the end, resource person discussed various lean tools for process improvement. Besides their usability in different situations were also discussed. The session was closed with Q&A round.</p>
Outcome of Activity	It infuses a spike of excellence and self-discipline in the students. Six Sigma is beneficial to students because it will help prepare them for leadership roles when they enter the business world.

SYLLABUS

SPSS

Course Code: MMAC05

Duration: 30 hours

SPSS and Functions:

- An Overview of SPSS
- Mouse and keyboard processing, frequently - used dialog boxes
- Editing output
- Printing results
- Creating and editing a data file

Managing Data:

1. Listing cases, replacing missing values, computing new variables,
2. Recording variables, exploring data, selecting cases, sorting cases, merging files

Graphs

- Creating and editing graphs and charts

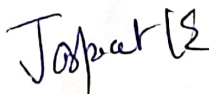

Frequencies:

- Frequencies, Bar charts, Histograms, Percentiles

Descriptive Statistics:

- Measures of central tendency, variability
- Deviation from normality, size, and stability
- Cross Tabulation and chi-square analyses
- The means Procedure
- Bivariate Correlation, Partial Correlations, and the correlation matrix
- The T-test procedure: Independent –samples, paired samples, and one sample Tests
- The one-way ANOVA procedure: One way analysis of variance,
- General Linear model: Two-way analysis of variance
- General Linear model:
 - i) Three-way analysis of variance and the influence of covariates

Report

Name of Activity	"SPSS" Training Program
Date	4 th Nov – 22 nd November 2019 (30 Hours)
Venue	MIMT, Seminar Hall
Organized by	Management Department
Name of Expert	Mr. Jayant Chakraborti, Trainer, TDF Consultant
Participated by	MBA 3 rd Sem (95 students)
Activity -Convener	Dr. Jaspreet Kaur, Asst. Professor, MIMT
Objective	The aim of the program is to enable the students to have the knowledge of SPSS software and understand when and what type of statistical method to use on SPSS.
Content	<p>With the initiative of Management Department, MIMT, Greater Noida has organized a 30-hours SPSS Training Program for MBA 3rd semester students. The students got an opportunity of gaining knowledge and practical exposure to the SPSS software under the guidance of Mr. Jayant from TDF CONSULTANT.</p> <p>To address challenges and opportunities in the field of research, and to help researchers conduct research in an accurate and meaningful way, numerous software products have been developed. SPSS is one of the most popular software used by researchers widely as SPSS has enabled academicians and students to obtain valuable information from the data. Basic knowledge of SPSS is vital for all users before they proceed to surveys and data analysis. The report of each day is given below:</p> <p>Day 1: The Day 1 starts with introducing students with the SPSS. The resource person discussed about the various functions of the SPSS with students. The expert explained the primary stages of research and steps in research process.</p> <p>Day 2: In this session, the resource person discussed how to manage data in excel and SPSS. And how to import data from Excel to SPSS. The resource person covered topics such listing cases, replacing missing values, computing new variables, recording variables, exploring data, selecting cases, sorting cases, and merging files.</p> <p>Day 3: On day 3, the resource person discussed about creating and editing graphs and charts. And how to import those charts and diagram in Excel.</p> <p>Day 4: In this session, students learn about calculation of frequencies in</p>

Knowledge Park-II, Greater Noida (U.P.)

SPSS and various command for frequencies.

Day 5: The session started with queries handling, and then resource person discussed about histogram and percentiles in SPSS.

Day 6: The day 6th was dedicated to descriptive analysis. The resource person provided data to students, and they did hand-on session.

Day 7: In this session, students learn about Cross Tabulation and chi-square analyses and means procedure.

Day 8: In this session, resource person discussed about correlation analysis. He further discussed about the use of correlation analysis. The focus was on Bivariate Correlation and Partial Correlations and the correlation matrix.

Day 9: In the subsequent sessions he dealt with development and types of hypotheses. Further, the expert discussed parametric and non-parametric tests for testing hypothesis. The day was dedicated to another important techniques for data analysis. In this session, the resource person discussed independent samples T-test, paired samples T-test, and one sample T-test with students.

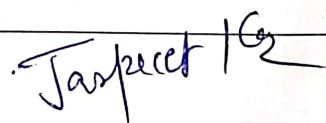

Day 10: In this session, the students learn about another hypothesis testing technique. The session was on One-way Analysis of Variance (ANOVA). Again, it was hands-on session and students did practice on data provided by resource person.

Day 11: On day 11th, the resource person discussed about general linear model: Two-way analysis of variance and Three-way analysis of variance and the influence of covariates. The session also discussed applicability of various forms of ANOVA in different situation.

Day 12: In this session, the resource person elaborated on multivariate analysis and dealt with co-relation and regression analysis using SPSS. The day was started with basics of Regression. Resource person discussed the assumptions of regression also. In this session, resource person discussed Simple Linear Regression and Multiple Regression Analysis.

Day 13: In this session, the resource person discussed about the Multidimensional scaling and Exploratory Factor Analysis. Students were also learnt about the various measures and types of variables.

Management & Technology
Greater Noida

Inspector

MANGALMAY INSTITUTE OF MANAGEMENT & TECHNOLOGY

(Approved by AICTE, New Delhi & Affiliated to AKTU, Lucknow)

Knowledge Park-II, Greater Noida (U.P.)

	<p>Day 14: In this session, another multidimensional technique was discussed. Resource person discussed cluster analysis and its applicability in the marketing research. He also discussed the reporting of cluster analysis results. He then had one to one session with the participants and addressed their queries.</p> <p>Day 15: On the last day of the course, an assessment test was scheduled.</p> <p>This 30-hours certification course was for beginners with little or no experience in SPSS for Windows who want to acquire the knowledge on getting started with SPSS.</p>
Outcome of Activity	The students learned how to define research problems and to develop a suitable methodology to address the key issues. It will enable them to understand the need for using appropriate statistical tools in research.
