Environment, Energy and Green Campus Policy		

Environment, Energy and Green Campus Policy

Mangalmai Institute of Management and Technology is committed for sustainable development and has been putting efforts to keep the environment clean and green since its inception. A large portion of the Campus has been dedicated for greenery with large variety of trees, herbs, shrubs and climbers.

Scope

The areas of eco/environmental/green/energy policy to be followed/practiced are:

- Waste Minimization and Recycling
- Greening
- Energy Conservation
- Water Conservation
- Clean Air
- Environmental Legislative
- General Practices

Objectives

- To promote environmental management and conservation in the institute campus.
- To introduce and make aware students of real concerns of the environment and its sustainability.
- To generate a general awareness of the students about the harm in utilizing plastic and recycling of the plastic within and off the campus.
- To ensure the availability of quality drinking water
- To ensure that recycled waste water is available for gardening
- To ensure for the solid Waste disposal system
- To ensure for the ambient environmental condition of air, water and noise in the campus.
- To ensure for the reduction in resource usage of water, electricity etc.
- To ensure for clean and green campus

Initiatives

1	Renewable Energy	The Institute has already installed solar panel at terrace area & electricity generated through these panel is used for institute routine works and rest extra generated electricity is sent to the

2	LED Lights	<p>To reduce power consumption and reduce load, Institute shall install energy efficient LED lights at various locations like in class room, reception area girl's hostel, boy's hostel etc.</p> <p>Placards be displayed in the campus to save the misuse of electricity.</p> <p>Moreover, MIMT has well designed and state of art infrastructure that has well ventilated classrooms with big windows that enables efficient flow of winds in and out along with natural lights in the room. These all are an attempt to reduce MIMT carbon footprint.</p>
3	Ground Water Recharge	Rain Water Harvesting System is in place
4	Pollution Reduction	Promotion of usage of Car pooling, public transport and restricted entry of vehicles in the campus, providing stickers to authorized vehicles in the campus
5	E-Waste Management	Through authorized vendors
6	Solid Waste Management	<p>Institute has designed methods for the management of waste generated in the campus using the basic waste management strategy of 3R's: Reduce, Reuse and Recycle i.e., Reduce the amount of waste generated, Reuse everything to its maximum after proper segregation and cleaning and keeping things which can be Recycled aside and handed over to appropriate agencies. Solid waste includes both biodegradable and non-biodegradable components. The non-biodegradable solid waste generated in the campus include, paper, metal cans etc. Biodegradable waste includes food waste, vegetable peels, leaves etc.</p> <p>Garbage in the campus be lifted on an alternate day for landfill</p>
7	Water Conservation	Waste water generated from the sanitary facilities be disposed off into STP plant effluents combined with hostel mess waste water for gardening, watering trees etc. The water discrete during purification in R.O. system be stored in a pit and the same is further used for gardening, watering trees etc.

8	Mitigation measures for Air pollution at construction stage and operation stage by developing adequate green belt.	To be complied with
9	Mitigation measures for noise pollution	To be complied with
10	Fire protection system	In place
11	Clean and green campus initiatives	<p>The faculty members and students residing nearby are to be encouraged to come by bicycles thus preventing the emission of carbon dioxide in the campus.</p> <p>Institute has designated bicycle stand in the campus.</p> <p>Students and employees should use the pedestrian-friendly routes.</p> <p>The interior roads are lined with trees and energy efficient lighting, and the campus AO through his/her team keeps them in good repair.</p> <p>Single-use plastics such as bottles, bags, spoons, straws, and cups are banned, and staff and students are made aware of the policy through orientation and display boards throughout the building.</p> <p>Maintenance of lush green campus with landscaping with trees and plants.</p> <p>Tobacco free campus is to be ensured.</p> <p>The institute will conduct various plantation drives within and outside campus. Also, the institute will sensitize the students for green initiatives.</p> <p>Institute shall maintain the detailed list of trees, herbs & shrubs</p>
12	Conduct Environment/Energy/ Green Campus Audit	the Admin Officer to ensure the compliance
